MOST INNOVATIVE ENVIRONMENTAL PROJECT

VVN Plant has bagged the coveted CII Environmental Best Practices Award 2020

Berger Paints India is pleased to announce that VVN plant, its wholly-owned subsidiary firm in Anand, Gujarat has won the prestigious CII Environmental Best Practices Award 2020 that was held on the 29th, 30th and 31st of July 2020 at a 3-day Digital Conference.

Berger Paints India was shortlisted for the national level competition among 28 companies in the Indian industry to showcase best shortlisted projects from areas such as Resource & Material Conservation, Waste Management & Recycling, Adoption of latest Pollution Control Measures, Climate Change & Mitigation efforts, Greening the Supply Chain, Product Responsibility Management, Life Cycle Assessment and Biodiversity Management.

CII in its endeavour to recognise, encourage and support the efforts of Indian industry in conservation of natural resources and pollution prevention organised this event. Awards were granted to units, who have made significant and measurable contributions towards development or use of cleaner technologies, processes or practices for environmental protection.

The case study presented by Berger Paints India before the esteemed panel of jury included innovation of paint filtration process using close loop self-cleaning automated filters, which has not only eliminated VOC emission but also reduced wastages.

Berger Paints India has always been committed towards adopting the best and environment-friendly practices that ensure minimal impact on the community. This prestigious award bears testimony to our efforts towards environmental innovation for a greener tomorrow.

Berger Paints India is the second largest paints company in India and has established itself as a trusted name in the Indian paint industry.
